Dahle Offers Complete Solution For Large Format Trimming *German Engineered For Safety and Accuracy*

Peterborough, NH, January 1, 2009 –

Rolling Trimmers are the new generation of paper cutters. Designed for safety and accuracy, the round cutting blade is encased in a protective housing that virtually eliminates the chance of personal injury. The rotary action of the blade allows the trimmer to cut in either direction and sharpen its blade along the way. It's this self sharpening action that produces a clean burr-free cut and guarantees many years of smooth precise cutting.

Dahle now offers a line of large format rolling trimmers designed for heavy duty applications where precision is essential. This Premium Series offers a cutting capacity of up to 22 sheets (model 446 S) or 20 sheets (model 448 S) of paper at a time as well as mat board. This performance is made possible by a thick walled aluminum guide rod which provides maximum strength with minimal side movement of the cutting head. These commercial grade trimmers are perfect for cutting oversize paper, large format images, and press sheets. A metal stand with paper catch offers a stable and secure mounting solution for the trimmer. This stand also maximizes floor space while providing an optimal and comfortable height for trimming.

“The Premium Series offers the ability to cut mat board as well as a single sheet of paper both cleanly and accurately,” said Chris Jackson, Marketing Manager, Dahle North America, Inc. “Why trust your images, or reputation with anything less?”

Dahle's Premium Series of large format rolling trimmers is available in two sizes. The 446 S has a cutting length of 36" and the 448 S cuts up to 51". They are priced at \$1,099 and \$1,299 respectively. These trimmers are manufactured in Germany and are the preferred choice among professional photographers, print shops and graphic design agencies throughout the world.

Dahle North America, Inc. is a fully integrated manufacturer of innovative office products and equipment with a brand name recognized for quality and precision. Dahle markets more than 300 products, including paper shredders, paper cutters and trimmers, scissors, pencil sharpeners, and Novus staplers.
