

SCISSORS AND SHEARS

Dahle scissors and shears are designed to accommodate the needs and comfort of both personal and professional users. Our handles are form fitting to gently fit around your fingers and reduce fatigue during extended use. With a wide range of sizes and cutting capabilities, Dahle scissors and shears are guaranteed to produce a clean cut each and every time.

VANTAGE® SCISSORS

These value priced scissors have handles made of a durable plastic and are contoured to fit comfortably around your fingers. The blades are made of ground stainless steel and cut cleanly through multiple sheets of paper. Available in 5", 6" and 8" sizes, they are perfect for school, the office, and to keep in every room of the house.

VANTAGE® COMFORT GRIP SHEARS

Sore tired fingers are a thing of the past with our line of Comfort Grip Shears. These ergonomically correct shears provide a soothing surface for your fingers and allow for continued comfort for as long as you cut.

The screw fastened blades have a double ground edge which allows the user to cut through thicker material and cut all the way to the tip for fine trimming. Comfort Grip Shears can cut easily through paper, fabric and card stock and are available in 5" 6" and 8" sizes.

PROFESSIONAL SCISSORS

These professional grade scissors are machine ground from Solingen steel and hardened to 56 Rockwell. This is the optimal hardness for maintaining a sharp edge. Screw fastened blades can be easily tightened to your personal preference. Available in 4", 6", 8" and 10" sizes, this professional line of German engineered scissors is perfect for years of continual daily usage.

SUPER SHEARS

These professional grade shears can handle the toughest material as well as the most delicate fabric. Also hardened to 56 Rockwell, Dahle Super Shears offer double ground Solingen steel cutting blades that cut all the way to the tip for fine trimming. Super Shears are German engineered and available in 4"-10" sizes. This line also features an 8" Allround Shear that has an aggressive micro-toothed cutting edge that can be used while cooking, camping, or anywhere an aggressive shear is needed!
