

SHREDDING SOLUTIONS

THE FUTURE OF DATA SECURITY

dDAHLE®

SHREDDING SOLUTIONS

WHY DAHLE?

For over 80 years Dahle has established a reputation for developing safe, innovative products that exceed the demands of its customers. Founded in 1930, Wilhelm Dahle first began producing steel cutting discs for pencil sharpeners. Throughout the years Dahle's reputation and customer satisfaction has grown worldwide.

In addition to a well established past, Dahle continues to forge the future of document shredding. The DAHLE CleanTEC® shredders are a dramatic accomplishment of innovative design, safety, and special features never seen before on a paper shredder. Features like Fine Dust Filtration, Safe Technology, and Electronic Sensing Protection (ESP) continue to keep us one step ahead of the competition - and are the reason why Dahle remains the preferred choice among professionals.

Shredding confidential information is a necessity and Dahle's document shredders are the proven benchmark for safe and effective data destruction. Our commitment to providing a safe, reliable solution for your document security needs, spans generations of loyal customers.

NEED

Why Shred? Events throughout history have shown the negative effects of discarded confidential information falling into the wrong hands. Documents found in the trash are not legally protected and considered fair game to individuals looking to find information about you, or your company. This explains the rapid increase in identity theft and industrial espionage. Federal security laws require medical and financial institutions, as well as normal business owners, to properly safeguard their clients personal and financial information. What's the best way to dispose of this information? Shred it with a Dahle professional shredder.

QUALITY

Dahle shredders are manufactured in Germany by Dahle Bürotechnik GmbH using the latest technology and finest materials. Each component is manufactured and assembled from over 80 years of experience. Dahle shredders use solid cutting cylinders milled from German Solingen steel and are guaranteed to last a lifetime. Rubber shock mounts, chain driven cylinders, and a thermally protected motor produce a quality machine and peace of mind knowing your Dahle shredder will provide many years of trouble free operation.

SUPPORT

Our commitment to our products continues long after your purchase. We take great pride in providing the highest quality products and services to meet the needs of our customers. Our team of pro-

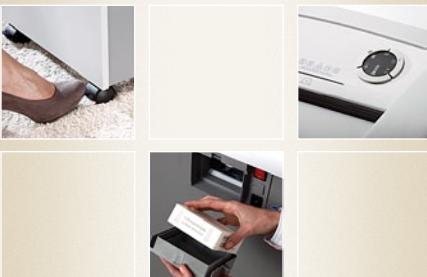

fessionals are determined take care of your needs for as long as you own our products. We also offer free technical support over the phone. If you're not sure who to call about an issue, contact Dahle Customer Relations at (800) 995-1379.

SHREDDER SELECTION

There are many things to consider when purchasing a shredder and all the variables can seem overwhelming. After all, the privacy of your confidential information is at stake, so it's important to make the right selection. With sheet capacities, motor sizes and waste volumes to consider, we'll help you narrow down your selection to only a few models with the following simple questions.

- How much and how often will you be shredding your confidential documents?
- How many people will use the shredder?
- What level of security do you require?
- Should your shredder have a fine dust filter and other convenience features installed?

After you narrow down your choices it's important to remember that your shredding volume will increase with time, so be sure to factor in growth when making a selection. If you need additional guidance in selecting a shredder or have special circumstances that should be taken into consideration, please contact us at (800) 995-1379.

DAHLE CLEANTEC® - FOR A CLEANER, HEALTHIER WORK ENVIRONMENT

For those interested in upgrading their shredder to include fine dust filtration and revolutionary safety features, we've developed the DAHLE CleanTEC® - The World's Most Advanced Shredder. The DAHLE CleanTEC® is an operator's dream. Not only is it the world's only shredder with an integrated dust filtration system, it also includes special features such as Safe Technology, ESP Protection, and an automatic EvenFlow Lubricator. These intelligent machines make shredding easy, and provide a safe breathing environment for the entire office.

Fine dust, or indoor air pollution, is created by everyday mechanical devices such as printers, copiers, and even document shredders. Each time paper is shred, tiny dust particles are produced and travel through the air. The smaller the particles are, the more harmful they can be to your health. As a solution, these shredders feature an integrated dust filtration system that collects the fine dust around the cutting cylinders, and forces them into a specialized 3 ply filter on the back of each machine. This environmentally friendly filter

permanently traps up to 98% of the fine dust, and provides a cleaner, healthier work environment.

Safety is a priority with every Dahle product, and each DAHLE CleanTEC® features the most advanced safety features in the industry. Equipped with the revolutionary Safe Technology package, each shredder responds to Verbal and Contact Emergency Shutdown. In the event of an emergency, simply say "Stop" or tap the top cover of the machine, and the shredder immediately stops. The shredder feed opening is reinforced with steel and only large enough to accept paper. As an added safeguard, this opening contains electronic sensors that will turn the shredder off, should your fingers get too close.

DAHLE CleanTEC® shredders are an advancement in technology with capabilities never seen before on a shredder. To get started, choose the desired shredder size and security level. The DAHLE CleanTEC® symbol to the left of each model indicates a shredder with these special features.

DAHLE CLEANTEC® SPECIAL FEATURES

DAHLE CleanTEC® Filtration: Provides improved air quality and promotes a healthy work environment by eliminating up to 98% of emitted fine dust.

Safe Technology: Revolutionary Verbal and Contact Emergency Shutdown System - Simply yell "Stop" or hit the top cover and the shredder immediately stops.

Electronic Sensing Protection(ESP): The shredder "Knows" how much you're shredding and will not operate if sheet capacity is exceeded.

EvenFlow Lubricator: This automatic oiler provides slow, continuous lubrication across the entire cutting mechanism and ensures peak shredder performance.

DESKSIDE SHREDDERS

401xx

8 ¾" Feed Opening
Security Levels 2&3
Milled Solid Cylinders
SmartPower Management
Made in Germany

It's all about convenience with a Dahle Deskside Shredder. Whether you're an executive, a secretary, or someone looking for added security at home, this machine is small enough to accommodate any workspace yet powerful enough to get the job done. Dahle's smallest

shredder is perfect for destroying bank statements, credit applications and financial records.

Dahle's Deskside Shredders offer an 8 ¾" feed opening to accommodate both letter and legal size paper with ease. They feature Automatic On/

Off, Bag Full Auto Off and Continuous Run operation. They can be conveniently placed at arms length so you never have to leave your desk to properly dispose of confidential documents. Made in Germany, these Dahle shredders will provide many years of trouble free service.

Model	Feed Width	Capacity #20 / #16	Security Level	Shred Size	CDs / DVDs	EvenFlow Lubricator	Waste Volume	Dimensions h x w x d	List Price
40104	8 ¾"	12 / 15	2	⅛"			8 gal	24 ¾" x 17" x 13 ¾"	\$895
40114	8 ¾"	8 / 10	3	⅛" x 1 ¼"			8 gal	24 ¾" x 17" x 13 ¾"	\$995

SMALL OFFICE SHREDDERS

403xx / 413xx

10 ¼" Feed Opening
Security Levels 2-5
Milled Solid Cylinders
SmartPower Management
Made in Germany

Small offices or teams of employees will benefit from the ease of use and quiet operation of these small to mid-size shredders. They're perfect for destroying records, proposals, and tax info.

The 402xx & 412xx shredders offer a 9 ½" feed opening that empties

into an 11 gal. waste compartment. The 403xx & 413xx shredders offer a slightly larger 10 ¼" opening and a 23 gal. waste bin. These elegantly designed machines feature a cutting mechanism that rests on vibration absorbing rubber shock mounts. When in operation, the entire head

"floats" in the wooden cabinet and produces minimal noise. Additional features include auto on/off, reverse, and continuous run operation.

These shredders are equipped with SmartPower to reduce power consumption and conserve energy.

OFFICE SHREDDERS

404xx / 414xx

10 ¼" Feed Opening
Security Levels 2-5
Milled Solid Cylinders
Chain Driven for Max Power
SmartPower Management
Made in Germany

With the widespread use of copiers and networked printers, it's essential to have a Dahle Office Shredder nearby for proper destruction of confidential information. Designed and developed in Germany, they are the preferred choice among security professionals throughout the world.

These commercial grade shredders provide a 10 ¼" feed opening, 30 gal. waste bin, sound deafening wooden cabinet, and lockable swivel casters. The easy-to-use command dial controls all of the shredder's functions including power up, reverse, and continuous run operation.

Each Dahle Office Shredder features solid cutting cylinders milled from a block of German steel. They're perfectly aligned in an all-steel frame and guaranteed for life. The result is a machine with strength, power and the ability to handle all of your data destruction needs.

SMALL DEPARTMENT SHREDDERS

405xx / 415xx

12" Feed Opening
Security Levels 2-5
Milled Solid Cylinders
Chain Driven for Max Power
SmartPower Management
Made in Germany

Dahle Small Department Shredders are made in Germany using the latest technology and finest materials. Teams of employees will benefit from the shredder's powerful motor and large storage capacity. Usually kept in centralized locations, these shredders make a nice addition to any large office.

Powered from a continuous duty motor, a steel chain and gears are used to provide slip free power to the cutting cylinders. It's the strength and durability of these components that provide maximum shredding capacity and longevity. *Removing staples and paper clips are a thing of

the past. Dahle shredders can easily accommodate these items without harming the machine and saving you time in the process *(excludes 41530).

These shredders are equipped with SmartPower to reduce power consumption and conserve energy.

DEPARTMENT SHREDDERS

406xx / 416xx

16" Feed Opening
Security Levels 2-5
Milled Solid Cylinders
Chain Driven for Max Power
SmartPower Management
Made in Germany

Known for their power and waste capacity, Dahle Department Shredders provide a practical solution for the destruction needs of even the busiest offices. These machines can continually shred large quantities of paper and are the perfect size for daily, monthly, and even quarterly shredding.

These high volume shredders feature a massive 45 gallon waste bin for longer shredding and less frequent bag changes. Usually kept in centralized locations, the Dahle Department Shredder is the perfect addition to any large office, copy room or communications center.

These machines control power consumption by using Dahle's exclusive SmartPower Energy Management System. This multi-stage system reduces power usage after ten minutes of sitting idle (sleep mode), and completely powers down after an additional 20 minutes of inactivity.

In today's society, there's nothing more risky than the accumulation of large volumes of confidential waste. A Dahle High Capacity Shredder is just the tool to destroy large quantities of paper in a short amount of time. These powerful machines fit nicely in a company

mail room, or any centralized location where large amounts of shredded material is taken.

Expensive shredding services are no longer needed with the ability to shred up to 85 sheets (20452) of paper at a time. A roll-out 50 gal-

lon waste container allows for longer shred times and a convenient way to change bags. Both sizes offer many safety features including a key lock function available only on the 2045x machines. These shredders are perfect for monthly and quarterly document purging.

HIGH SECURITY SHREDDERS

LEVEL 6 SHREDDERS

1mm x 4.7mm Shred Size
Security Level 6
Includes Automatic Oiler
Milled Solid Cylinders
Chain Driven for Max Power
Made in Germany

Dahle High Security Shredders offer the greatest protection available. These machines are designed for military, federal, state or local governments as well as Department of Defense contractors engaged in projects where National Security is an issue.

Each shredder is equipped with an automatic oiler that provides slow, continuous lubrication across the entire cutting mechanism. The oil reduces wear on the precision milled cutting cylinders and ensures optimal shred capacity and performance.

Each shredder features SmartPower Energy Management. This revolutionary multi-stage system reduces power consumption after ten minutes of sitting idle (sleep mode), and completely powers down after an additional 20 minutes of inactivity (excludes 20394).

INNOVATIVE PRODUCTS FOR PROFESSIONAL PEOPLE

LIMITED LIFETIME WARRANTY

Dahle guarantees its shredders to be free from manufacturing defects (materials / workmanship) for a period of 2 years. Dahle offers a lifetime guarantee on the cutting cylinders (1 year on Security Level 5 and Level 6 models).

This warranty does not cover damage caused by improper oiling, paper jams, misuse, abuse, improper line voltage, or unauthorized repair. This warranty applies to the original purchaser only and is not transferable. There are no other warranties expressed or implied beyond the face of this agreement. For service or more information on this warranty, contact a Dahle Account Representative at (800) 995-1379.

DAHLE SHREDDERS STANDARD FEATURES

- ① **All Steel Frame:** Keeps the cutting cylinders in perfect alignment for optimal performance.
- ② **Solid Cutting Head:** A solid block of German Solingen Steel is milled to create each cutting cylinder.
- ③ **Door Open Interlock:** Prevents the shredder from operating with the door open. This safety feature is found on all models.
- ④ **Thermally Protected Motor:** Thermal protection prevents damage to the motor from overheating.
- ⑤ **Rubber Shock Mounts:** Barrier between the cutting head and cabinet. They isolate noise and reduce vibration making Dahle shredders some of the quietest on the market.
- ⑥ **Shred Bag:** Features gusseted sides to expand to the maximum capacity of your shredder cabinet.
- ⑦ **Wooden Cabinet w/Swivel Casters:** Attractive cabinet helps reduce noise and blend in with any decor. Swivel casters allow for easy movability.
- ⑧ **SmartPower:** Energy management system that reduces power consumption when sitting idle, and eliminates power use after 30 minutes of inactivity.
- ⑨ **Chain Driven:** Provides slip-free power to the cutting mechanism for maximum throughput.

*Some components not available on certain models.

DAHLE CLEANTEC® SPECIAL FEATURES

- ⑩ **Dust Filtration:** Eliminates up to 98% of the shredders fine dust particles and provides a cleaner, healthier work environment.
- ⑪ **Safe Technology:** Revolutionary Verbal and Contact Emergency Shutdown System - Simply yell "Stop" or hit the top cover and the shredder immediately stops.
- ⑫ **ESP Protection:** The shredder "Knows" how much you're shredding and will not operate if sheet capacity is exceeded.
- ⑬ **EvenFlow Lubricator:** This automatic oiler provides slow, continuous lubrication across the entire cutting mechanism to ensure peak performance.
