PROFESSIONAL SHREDDERS

In order to protect our National Security, destroying confidential information is a necessity. Dahle's commitment to providing innovative, reliable shredders for the U.S. Government is the reason why we remain the preferred choice among military and government personnel.

DAHLE QUALITY

Dahle shredders are manufactured in Germany by Dahle Bürotechnik GmbH using the latest technology and finest materials. Each component is manufactured and assembled from over 80 years of experience. Dahle shredders use solid cutting cylinders milled from German Solingen steel and are guaranteed to last a lifetime. Rubber shock mounts, chain driven cylinders, and a thermally protected motor, produce a quality shredder and peace of mind knowing your machine will provide many years of trouble free operation.

DAHLE CLEANTEC® - FOR A HEALTHIER WORKPLACE

For those interested in upgrading their shredder, we've developed the DAHLE CleanTEC® - The World's Most Advanced Shredder. The DAHLE CleanTEC® is an operator's dream. Not only is it the World's only shredder with an integrated dust filtration system, it also includes special features such as Safe Technology, ESP Protection, and an automatic EvenFlow Lubricator. These intelligent machines make shredding easy, and provide a safe breathing environment for the entire office.

Fine dust, or indoor air pollution, is created by everyday mechanical devices such as printers, copiers, and even document shredders. Each time paper is shred, tiny dust particles are produced and travel through the air. The smaller the particles are, the more harmful they can be to your health. As a solution, these shredders feature a dust filtration system that collects the fine dust around the cutting cylinders, and forces them into a specialized 3 ply filter on the back of each machine. This environmentally friendly filter permanently traps up to 98% of the fine dust, and provides a cleaner, healthier work environment.

ECO-FRIENDLY

From production to operation, Dahle takes environmental conservation very seriously. This is why Dahle shredders operate using our intuitive SmartPower Energy Management System. This multi-stage system reduces power consumption after ten minutes of sitting idle (sleep mode), and completely powers down to a 0% energy draw after 20 minutes of inactivity. This makes Dahle the most energy efficient shredders on the market. The benefits of Dahle SmartPower will appeal to those interested in conserving energy as well as reducing electrical costs. (Excludes "20 Series" Shredders)

DAHLE CLEANTEC® SPECIAL FEATURES

DAHLE CleanTEC® Filtration: Provides improved air quality and promotes a healthy work environment by eliminating up to 98% of emitted fine dust.

Safe Technology: Revolutionary Verbal and Contact Emergency Shutdown System - Simply yell "Stop" or hit the top cover and the shredder immediately stops.

Electronic Sensing Protection(ESP): The shredder "Knows" how much you're shredding and will not operate if sheet capacity is exceeded.

EvenFlow Lubricator: This automatic oiler provides slow, continuous lubrication across the entire cutting mechanism and ensures peak shredder performance.

DAHLE SHREDDERS

STANDARD FEATURES

- ① All Steel Frame:** Keeps the cutting cylinders in perfect alignment for optimal performance.
- ② Solid Cutting Head:** A solid block of German Solingen Steel is milled to create each cutting cylinder.
- ③ Door Open Interlock:** Prevents the shredder from operating with the door open. This safety feature is found on all models.
- ④ Thermally Protected Motor:** Thermal protection prevents damage to the motor from overheating.
- ⑤ Rubber Shock Mounts:** Barrier between the cutting head and cabinet. They isolate noise and reduce vibration making Dahle shredders some of the quietest on the market.
- ⑥ Shred Bag:** Features gusseted sides to expand to the maximum capacity of your shredder cabinet.
- ⑦ Wooden Cabinet w/Swivel Casters:** Attractive cabinet helps reduce noise and blend in with any decor. Swivel casters allow for easy movability.
- ⑧ SmartPower:** Energy management system that reduces power consumption when sitting idle, and eliminates power use after 30 minutes of inactivity.
- ⑨ Chain Driven:** Provides slip-free power to the cutting mechanism for maximum throughput.

*Some components not available on certain models.

DAHLE CLEANTEC®

SPECIAL FEATURES

- ⑩ Dust Filtration:** Eliminates up to 98% of the shredder's fine dust particles and provides a cleaner, healthier work environment.
- ⑪ Safe Technology:** Revolutionary Verbal and Contact Emergency Shutdown System - Simply yell "Stop" or hit the top cover and the shredder immediately stops.
- ⑫ ESP Protection:** The shredder "Knows" how much you're shredding and will not operate if sheet capacity is exceeded.
- ⑬ EvenFlow Lubricator:** This automatic oiler provides slow, continuous lubrication across the entire cutting mechanism to ensure peak performance.

B8FC FLAT CLINCH STAPLER

The innovative Novus B8FC incorporates the industry's only Power-on-Demand (POD) technology that

requires 70% less effort to staple. Just lift the top lever and experience the benefits of stapling up to 50 Sheets

of paper from across your desk! This Flat Clinch stapler also provides up to 30% more filing space.

ITEM #	COLOR	CAPACITY	THROAT DEPTH	DIMENSIONS	GSA PRICE
020-1673	Black	50 Sheets	2 5/8"	7 7/8" x 1 7/8" x 3 7/8"	\$49.47

B17 LONG ARM STAPLER

The Novus B17 is a unique stapler with an 11 3/4" reach. It features an adjustable depth guide to ensure you

staple at the desired depth each and every time. With the added ability of temporary pinning, the B17 is ideal

for stapling across large documents, binding booklets, and everyday stapling.

HEAVY DUTY STAPLERS

Designed and developed in Germany, these rugged staplers are capable of continually stapling large quantities

of paper with minimal effort. They feature an innovative Anti-Blocking System (ABS) which prevents the

possibility of a staple jam. A depth guide and Automatic Bypass System is standard on most models.
